ABOUT US

Birstonas Mineral Water company was established in 1924 when mineral water was first bottled in an industrial way in Lithuania. Today, Birstonas Mineral Water is the market leader in Lithuania and the Baltic States (25% market share in Lithuania & 11.5% in Baltic States market share in value of non alcoholic beverages), while Akvilė, Vytautas and Birutė are household names.

Birstonas Mineral Water is a modern food tech company, with 2 modern production facilities, an R&D department, advanced production technologies and strict methods of quality control with 3 different water sources, each with unique mineral composition, producing healthy, tasty and sustainable mineral water products and beverages.

Vytautas® akvilė Birutė

MINERALITY

VITAL MINERALS

Human bodies cannot produce essential minerals, such as Calcium, Magnesium etc. Natural mineral water is the best source for these nutrients.

The minerals are already dissolved, so your body can absorb them quickly. Birutė, Fit minerals and Vytautas can make a valuable contribution to a healthy diet as a natural source of minerals. After sport, coffee, meal, sauna, party, sex or simply in between – Birutė, Fit minerals and Vytautas mineral water is the perfect companion in everyday life.
